British Telecommunications Engineering

INDEX

VOLUME 2

(April 1983–January 1984)

A

Access—A Step-by-Step Description of the Network Terminating Equipment, Integrated Digital 202
ACKROYD, B. R. Project UNIVERSE—Local Area Networks and Satellite Communications 121
ALVEY, J. (profile) 281
Anniversary, Royal Videoconference for STD 275
Area Networks and Satellite Communications, Project UNIVERSE—Local 121
Area Networks, Local 6
Automatic Test System for Measuring the Transmission Performance of Telephones, TIGGER—An 70

B

Barrier Communications, Thames 126
BEARD, T. R. C. The Fully-Mechanised Traffic-Recording System 232
Bearer for the Information Age, KiloStream—A Digital ... 152
BENNETT, F., PAYNE, G., and EWERS, D. R. SEQUIN—A Computerised Information System for Enquiry Operators 254
Book Reviews 11, 16, 26, 51, 93, 119, 238, 260
BOUSFIELD, P. Installation of a New Telephone Network and MegaStream System for the London Borough of Newham 54
BOWSHER, B. D. KiloStream—A Digital Bearer for the Information Age 152
British Standard for Simple Extension Telephones: Transmission Aspects 64
British Telecom and Project UNIVERSE 91
British Telecom Press Notices ... 60, 132, 133, 282, 283, 284
British Telecom Research Laboratories, Commercial Enterprise at 168
British Telecom Teletrade 165
British Telecommunications Engineering: The Journal's Organisation and Development Since 1958 2
BROWN, R. S. Telex–Packet Switching Interworking in the UK 27
BROWN, W. G. Equipment Cooling for Modernisation ... 246
BUCKLEY, J. F. High-Level Hardware Description Languages: A New Computer-Aided Design Tool 239
Business System, The City 174

C

Cables, Digital Testing of Metallic-Pair 115
Cables, Protection of Submarine 145
Caldey Island, Local-Line 8-Channel Carrier System for ... 110
Carrier System for Caldey Island, Local-Line 8-Channel ... 110
Centralised Traffic Recording for TXE2 Exchanges ... 52
CHILDS, G. H. L., and MORROW, G. British Telecom and Project UNIVERSE 91
Circuit Provision in the System X Era 244
City Business System, The 174
CLARK, R., and NICHOLS, P. E. British Telecommunications Engineering: The Journal's Organisation and Development Since 1958 2
Clock, The New British Telecom Speaking 192
Commercial Enterprise at British Telecom Research Laboratories 168
Communication Program for On-Line Systems and its Use in Man–Machine Language Transation Work, A ... 198
Communications Satellite Multi-Service Transponder, The European 32
Computer Communication: A Review, The Sixth International Conference on
Part 1—The Plenary Sessions 38
Part 2—The Specialist Sessions 267
Computer-Aided Design Tool, High-Level Hardware Description Languages: A New 239
Computerised Information System for Enquiry Operators, SEQUIN—A 254
Conference on Computer Communication: A Review, The Sixth International
Part 1—The Plenary Sessions 38
Part 2—The Specialist Sessions 267
Configuration Control, TXE4 43
Congress, Montreal, 1983, The Tenth International Teletraffic 259
Control, TXE4 Configuration 43
Cooling for Modernisation, Equipment 246
CROSS, R. C., and WARD, H. F. TIGGER—An Automatic Test System for Measuring the Transmission Performance of Telephones 70
Crossbar Telephone Exchange, The Transmission-Relay-Group Routiner at the Luton TXK1 56
CROWE, J. M. British Standard for Simple Extension Telephones: Transmission Aspects 64
Customers' Lines, Processor-Controlled Systems for the Testing of 261

D

DC Power Systems: The Power Equipment Rack, Modern ... 186
Description Languages: A New Computer-Aided Design Tool, High-Level Hardware 239
Design, Optical-Fibre Transmission Systems in the British Telecom Network: System 180
Design Tool, High-Level Hardware Description Languages: A New Computer-Aided 239
Digital Access—A Step-by-Step Description of the Network Terminating Equipment, Integrated 202
Digital Bearer for the Information Age, KiloStream—A ... 152
Digital Local Telephone Exchange, UXD5B: A 600-Line ... 158
Digital Testing of Metallic-Pair Cables 115
Digital-Radio Link and MegaStream System for a Large Private-Circuit Network 37
DUFOUR, I. G. Digital Testing of Metallic-Pair Cables ... 115

E

Earth Station at Goonhilly Downs for a Satellite Service to Ships, A New
Part 2—The Access Control and Signalling Equipment ... 17
Electronic Exchange System TXE4A
Part 2—Design and Operation 101
Enquiry Operators, SEQUIN—A Computerised Information System for 254
Enterprise at British Telecom Research Laboratories, Commercial 168
Environment, Telecommunications in the Rural 207
Equipment Cooling for Modernisation 246
Equipment, Integrated Digital Access—A Step-by-Step Description of the Network Terminating 202
Equipment Rack, Modern DC Power Systems: The Power ... 186

European Communications Satellite Multi-Service Transponder, The 32
EWERS, D. R., BENNETT, F., and PAYNE, G. SEQUIN—A Computerised Information System for Enquiry Operators 254
Exchange System TXE4A, Electronic
Part 2—Design and Operation 101
Exchange, The Transmission-Relay-Group Routiner at the Luton TXK1 Crossbar Telephone 56
Exchange, UXD5B: A 600-Line Digital Local Telephone ... 158
Exchanges, Centralised Traffic Recording for TXE2 ... 52
Exhibition at the Science Museum—British Telecom's Involvement, New Telecommunications 111
Exhibition, TELECOM 83: The Fourth World Telecommunications 138
Extension Telephones: Transmission Aspects, British Standard for Simple 64

F

Fifth International Symposium on Subscriber Loops and Services—ISSLS 82, The 50
FINDEN, R. E., PIQUÉ, P., and KETTRIDGE, K. New Transformer/Rectifier Units for the Post Office Railway 256
FLACK, M., and KENT, T. A New Earth Station at Goonhilly Downs for a Satellite Service to Ships
Part 2—The Access Control and Signalling Equipment ... 17
Fourth World Telecommunications Exhibition, TELECOM 83: The 138
FRAME, P. B. (profile) 281
FRENCH, D. J. The City Business System 174
Fully-Mechanised Traffic-Recording System, The ... 232

G

Gate Arrays in Telecommunications, The Use of ... 78
GIBBS, J. W., and TRUDGETT, P. A. UXD5B: A 600-Line Digital Local Telephone Exchange 158
Goonhilly Downs for a Satellite Service to Ships, A New Earth Station at
Part 2—The Access Control and Signalling Equipment ... 17
GRIERSON, J. R. The Use of Gate Arrays in Telecommunications 78
GROOM, A. R. The Transmission-Relay-Group Routiner at the Luton TXK1 Crossbar Telephone Exchange ... 56

H

HALLIDAY, J. B. The New British Telecom Speaking Clock ... 192
HARCOURT, R. I., and HENLY, H. R. Parcel Traffic Recording—TRIPOS 251
Hardware Description Languages: A New Computer-Aided Design Tool, High-Level 239
HARE, A. G. The Fifth International Symposium on Subscriber Loops and Services—ISSLS 82 50
HARRIS, P. R. Circuit Provision in the System X Era ... 244
HARRISON, J. C. The Impact of the Invention of Polyethylene on World Telecommunications 81
HENDERSON, J., and WITTY, B. A. Modern DC Power Systems: The Power Equipment Rack 186
HENLY, H. R., and HARCOURT, R. I. Parcel Traffic Recording—TRIPOS 251
High-Level Hardware Description Languages: A New Computer-Aided Design Tool 239
HODSON, K., and MCGOVERN; D. The European Communications Satellite Multi-Service Transponder 32
HOPPITT, C. E. Integrated Digital Access—A Step-by-Step Description of the Network Terminating Equipment 202
HORGAN, D. J. Digital-Radio Link and MegaStream System for a Large Private-Circuit Network 37
Hybrid Concept, Key Systems—The 211

I

Impact of the Invention of Polyethylene on World Telecommunications, The 81
Information Age, KiloStream—A Digital Bearer for the 152
Information System for Enquiry Operators, SEQUIN—A Computerised 254
Installation of a New Telephone Network and MegaStream System for the London Borough of Newham ... 54
Institution of British Telecommunications Engineers 57, 130, 228, 280
Integrated Digital Access—A Step-by-Step Description of the Network Terminating Equipment 202
International Conference on Computer Communication: A Review, The Sixth
Part 1—The Plenary Sessions 38
Part 2—The Specialist Sessions 267
International Leased Telegraph Message Switching Service ... 222
International Symposium on Subscriber Loops and Services—ISSLS 82, The Fifth 50
International Teletraffic Congress, Montreal, 1983, The Tenth ... 259
Interworking in the UK, Telex–Packet Switching ... 27
Invention of Polyethylene on World Telecommunications, The Impact of the 81
